GENERAL INFORMATION

To immortalize the sacred thread of true education in India, we intend to introduce a new 'teaching-learning centre' with the gateway to educational empire that is known as 'English Language and Literature'. All the greatest educationists of India were great English scholars.

The ideal educationist of today will find a way to establish the philanthropic attitude of delivering their instructions through the golden global tongue.

The institute aims at imparting liberal education through English medium to both boys and girls together so that they may meet the special challenges of society, accept civic duties and responsibilities with fortitude, courage and pleasure. We want to inculcate in them refined social manners, attitude and morals.

OBJECTIVES OF THE INSTITUTE

To take individual care of all students, in their studies, general behavior, participation in various co-curricular and extra-curricular activities and to encourage them to achieve excellence in all walks of life.

- To make them conscious and responsible Citizen of our Motherland and the World at large.
- To let 'Shraddha', 'Gyan' and 'Karma' be the motto of life.
- To learn the value of team work and cultivate the ability to accommodate the view points of others.
- To develop rationalism and adoption of scientific methods so that they may avoid irrational and unmethodical actions in life and society.
- To make them learn that the best Leader is one who can carry out orders and that service to fellow beings is the secret of social development.

THE END
